Dear Parents,

It is now time to select your child's GCSE Options. We usually advise a broad selection which will include the core Academic Subjects, as this will create a sound basis for almost any 'A' levels, for most University courses and for many careers. We will try to accommodate as many choices as possible. Students may try options and move onto other areas if their initial choice was not right for them. There are over 30 options to select from. Please tick your preferred selection, over the page.
